

SWING MAMA

I used to take a dress, I wanna do my best
I wanna go, now, I gotta find a place to swing
Go to a pub downtown to sing
I'm the most precious lady, you've ever seen

I promise to myself to be one of those names
written down in History
I never sing without my soul, all the people call me:
Swing Mama

REF:

Swing mama, don't you wanna shake your body
I wanna know, if you can set me free
Swing mama, don't you wanna shake your body
I wanna know, if you can break my chains

Just started my quest, I hear a good sound
I lest I'm not guest, but I got no frowns
I must find a good jest, before starting my song

Once on stage, I'm no longer the same
No problems, no doubts, to get mixed up in my brain
I don't think about the past or future
I wanna just share my bliss, know peace together
When I sing, I love the way I feel

REF

Don't you wanna shake your body?
I wanna know if you can set me free
I wanna know if you can break my chains
